Trailer hitch standard

What's clear to landscape professionals will quickly become clear to you after just one mowing...the responsiveness and maneuverability...the visibility from the comfortably appointed cockpit...the beautifully manicured cut...the close-in trim-ability...the ease of operation...the durable construction...the attention to detail...how everything efficiently and reliably integrates together to make cutting grass fast and easy.

KEY FEATURES

Flip-out handlebars allow you to easily and safely enter or exit the ergonomically designed cockpit.

A low center of gravity provides excellent stability and traction as you maneuver around your property creating a beautifully manicured look.

With the 3-n-1 System you can quickly transition from side-discharge to mulch to bagging to assure your property will always be the envy of the neighborhood. (Mulching and bagging attachments sold separately.)
