

Gravely ZT2548XL

All About Durability...And Then Some

The ZT 2548XL Consumer Zero-Turn Mower

It all starts with commercial-grade engineering...and an energetic power plant...followed by a durable cutting deck of welded steel...then there's the maneuverability...the responsiveness...and an ergonomically designed cockpit with all the comfort and ease-of-operation you could ever want... side to side...front to back...top to bottom... a ZT XL zero-turn delivers unrivaled performance and reliability right to where you live and mow.

KEY FEATURES

Highly responsive, low maintenance engine options are available to powerfully and reliably propel you across the landscape.

A tube chassis design underscores Gravely's commitment to deliver durable, trouble-free performance from one mowing season to the next.
